Look At Us

In Class

The 4th grade watched an experiment on the water cycle! The hot plate acted as the sun and they watched the water evaporate into steam. The water vapor hit the cold "cloud" that has ice on top and condensation formed on the bottom of the plate. Eventually the condensation collected and there was actual precipitation in the classroom!

Our 8th graders have been busy (and wet) finding out their volume to determine the density of a person.

In Mrs. Williams's 2nd grade class they are doing rock observations of Pyrite, Halite, Galena, Pumice, Talc, Sulfur, Mica, Quartz, and Obsidian.

Check out Mrs. Hamrick's students- practicing how to round numbers in math on the Chromebooks!

You only have until Monday, Oct. 15th to preorder 2018-2019 yearbooks for \$50-after that the price will increase. Students in preschool -5th grade can visit www.yearbookordercenter.com and enter code 13543 to place their order online. Yearbook order forms can also be found on the IWA website. (Students in grades 6-12 will already receive a yearbook as part of fees paid at the beginning of the school year).

Cross Country Goes

To The Dogs

On Wednesdays you will see the IWA Cross Country team at the Isle of Wight County animal shelter. The team has coined this "Dog Walking Wednesdays" when they get a chance to slow their pace and get some easy walking/jogging in and the animals get a lot of extra love and attention.

The IWA JSCO held the first breakfast of the year for faculty members recently. The morning started off in a delicious way with fruit, muffins, casseroles, sausage balls, donuts and more! It was a wonderful way for our teachers to start their day!
