- This year we are asking that you bring in all of the school supplies on open house night labeled with your child's name on them. We are going to keep all the supplies in their cubbies and replenish supplies as needed. The goal is to replenish the supplies every 9 weeks. This way it should keep down on us asking for supplies throughout the year. We will notify you if your child uses all of one supply so you can send in more. Hopefully we will not have to ask for any more supplies.
